FACTS DON'T LIE

We live in a digitally driven world and many of our actions are passively or actively recorded in a car, on a mobile phone, using social media or even via traffic cameras. Our clients include attorneys, investigators, civil litigants, law enforcement, municipalities, corporations, college athletic recruiters, human resource professionals, and the general public.

DID YOU KNOW...

Did you know we offer cutting edge technology and have developed the Black Swan Remote Extraction Machine, so you can provide extractions that are immediate and on-site?

Did you know all cars since 2012 have a black box that records location, speed and braking?

Did you know all deleted data continues to live on a mobile phone, including call logs, texts, and photos?

Did you know by 2020 the Internet of Things (IoT) will consist of about 30 billion objects and cell phone will number over 6 billion globally?

SPECIALIZED SERVICES AND EXPERT ACCESS 24/7

Facts are facts - Black Swan prides itself on the ability to quickly present our clients with comprehensible, objective and irrefutable results in your preferred format. All disclosed evidence is legally admissible and we provide the same in-depth analysis to every situation, no matter the budget.
